HOME OCCUPATION QUESTIONNAIRE

Is this business located in your home? Yes _____ No _____

If Yes, you must read the following Home Occupation Conditions:

A business conducted within a dwelling shall qualify as a home occupation if the applicant agrees to meet the following conditions.

1. Compliance with all Federal, State, & Local codes.
2. The residential character of the lot and the dwelling unit shall be maintained. No change in the outside appearance of the building or premise, or any construction feature or alteration not of a residential character, shall be allowed as a result of the home occupation except as necessary to comply with accessibility law.
3. All activity of the home occupation shall be carried on entirely within the dwelling and shall occupy a maximum of 600 sq. ft. or 25% of the dwelling heated area; whichever is less.
4. The goods, stock-in-trade, or other commodities associated with the home occupation shall neither be displayed nor visible from a location of the site on which business is conducted. There shall be no warehousing of materials/supplies outside the dwelling hosting the home occupation.
5. There shall be no show windows, window displays, advertising signs, or structures on or near the site designed to attract customers, clients, or the general public to the premises. The only sign permitted on a residence hosting a home occupation shall have a maximum of 2 sq. ft. and state only the resident's name and the street number.
6. The home occupation may not generate any additional amount of vehicular or pedestrian traffic. Business-regulated vehicles may only park in the existing garage or existing driveway. Parking of these vehicles is not permitted on any public roadway.
7. No equipment or process shall be used which has objectionable characteristics or effects, or which would identify the premises as serving a nonresidential character. These can include, but are not limited to; noise, erosion, vibration, fumes, odors, dust, smoke, lighting, effluent, or electrical interference detectable to normal senses of the site of the dwelling hosting the home occupation.
8. No hazardous activity shall be permitted as part of occupation. This includes processes associated with the product of the home activity or storage of materials capable of generating fire, toxicity, or explosive.
